

HEALTH AND SAFETY POLICY

The Management of TERRATEST GROUP understands that Health and Safety forms an essential part of its activity and assumes it as a fundamental aim in the organization, promoting the permanent improvement of preventive action, and establishing safe and healthy working conditions for all its employees and partners. A Health and Safety Management System has been developed, in accordance with the following principles:

- Priority and permanent commitment to assume the leadership and make the necessary efforts in material and human resources to develop and support a Health & Safety Culture shared by all workers.
- Strengthen the elements of training, awareness, communication and professional competence of workers.
- Promote and guarantee the consultation and participation of workers in issues of occupational Health and Safety.
- Analyse and determine actions aimed at eliminating dangers and reducing health and safety risks, including the causes of occupational incidents and accidents, for the implementation of appropriate corrective actions.
- Comply effectively with the legal, regulatory and other requirements to which the organization subscribes in the area of Health and Safety.
- Continuous improvement of the Health and Safety Management System.
- Coordinate and integrate stakeholders and suppliers in the development of the Health and Safety Management System.
- Adapt the Health and Safety Management System to technological advances.

For the development of the stated Health and Safety Policy, the Senior Management of TERRATEST GROUP defines objectives for the performance of each of the different levels of the organization. The achievement of these objectives will be ensured through the involvement of all the staff of the organization, as well as the assumption of responsibilities at all levels and in all our activities.

Enrique Torres García-Lomas
Chairman
